

## 13CrMo44 Alloy Steel

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. 13crmo44 is low-alloy steel containing chromium and molybdenum as strengthening elements. It has good mechanical property similar to grade 12CrMo. It is generally used in the quenched and tempered condition. **DIN 17175 13CrMo44 Pipes** is used in heating surface pipe with low and medium pressure boilers. The addition of Nickel and Chromium makes **13CrMo44 steel tube** with high mechanical performance and corrosion resistance, which is used for heating surface pipes, coal economizers, super heaters, re-heaters, petrochemical industry pipes and so on in high pressure boilers

DIN 17175 13CrMo44 Boiler Steel Pipe is mainly used for high pressure boiler system and pressure vessels. It can be used in a variety of vessels to withstand high pressures. It is used in a huge range of industrial processes such as power generation industry, food, chemicals and pharmaceutical industries, oil and gas industry etc. It has high resistant and low temperature and corrosion-resistant in the oil, chemical, electric powder, boiler or pressure vessels industry.

**13CrMo44 Alloy Steel Tubes, 13CrMo44 Alloy Steel Welded Rectangular Tubes Manufacturers, 13CrMo44 Alloy Steel Seamless Tube Suppliers, 13CrMo44 Alloy Steel Marine Exhaust Tube Exporters 13CrMo44 Alloy Steel Polished Decorative Tube Stockist.**

**13CrMo44 Alloy Steel Square Tube in India, 13CrMo44 Alloy Steel Tubes Manufacturers in India, 13CrMo44 Alloy Steel Rectangular Tube Suppliers in India, 13CrMo44 Alloy Steel Hydraulic Tube Exporters in India, 13CrMo44 Alloy Steel ERW Tubes Stockist in India.**

**Chhaged Steel & Alloy Pvt Ltd.**

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
