

Aluminium 5083 Alloy Pipes

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries. **5083 Aluminum Pipe** is one of many aluminum alloys used in different industries. The ASTM B241 Aluminum Seamless Pipe has fine granular structure that allows it to be easily and precisely anodized. It is drawn and is smooth. The addition of magnesium and other elements in this alloy makes it much corrosion resistant under marine environments. This property makes the alloy be used extensively in marine applications. The **EN AW-5083 Aluminum Welded Pipe** cannot be heat treated after production. It is one of the strongest among the non-heat treatable aluminum alloys. Cold working is used to strengthen the pipes of this type. The **Aluminum 5083 Box Pipes** are used in stronger applications that require strength, aluminum is not strong enough compared to steel, but the addition of alloying materials along with the shape of the alloy could make it stronger but not to the level of steel alloys.

5083 Aluminum ERW Pipe is electric resistant welded and has a good weldability. This property helps the material be used interchangeably with other material made pipes as well. The **5083 Aluminum Alloy Hollow Pipes** are one of the most used but the sizes and shapes can differ. The 5083 Marine Grade Aluminum Rectangular Pipes shapes mainly determine the strength and the application type. They are also used in some applications. The underwater lines usually do not require much strength but need more corrosion resistance.

Aluminium 5083 Alloy Pipes, Aluminium 5083 Alloy Welded Rectangular Pipes Manufacturers, Aluminium 5083 Alloy Seamless Pipe Suppliers, Aluminium 5083 Alloy Marine Exhaust Pipe Exporters Aluminium 5083 Alloy Polished Decorative Pipe Stockist.

Aluminium 5083 Alloy Square Pipe in India, Aluminium 5083 Alloy Pipes Manufacturers in India, Aluminium 5083 Alloy Rectangular Pipe Suppliers in India, Aluminium 5083 Alloy Hydraulic Pipe Exporters in India, Aluminium 5083 Alloy ERW Pipes Stockist in India.

Chhajed Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
