

Alloy Steel Flanges

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Alloy Steel Flange** Material has chemical composition, such as nickel, nickel-chromium, molybdenum, chromium-molybdenum steels, and can differ according to its chemical composition. **Low Alloy Steel Flanges** are widely used for automotive and aerospace bodies, offshore and onshore structural engineering plates and railway lines. **Alloy Steel Threaded Flanges** is known as screwed flange and it has a thread inside the flange bore which fits on the pipe with matching male thread on the pipe. And they are widely demanded as pipe flanges i.e called as threaded flanges which is useful in different industrial applications. Chrome moly flanges provide improved levels of molybdenum and chromium.

Alloy Steel Plate Flanges are used to seal the end of pipelines, valves or other connection. With high tensile strength it is available with a raised face and backups for easy installation. **ASTM A182 Alloy Steel Blind Flanges** has mounting holes around the perimeter and the gasket sealing rings are machined into the mating surface. They have a solid disk used to block off a pipeline or to create a stop. It can be placed in between two open flanges, which stops the flow through a pipe. It does not have any openings for fluids to pass through.

**Alloy Steel Flanges, Alloy Steel Blind Flanges
Manufacturers, Alloy Steel Weld Neck Flanges Suppliers,
Alloy Steel Slip On Flanges Exporters Alloy Steel High Hub
Blind Flange Stockists.**

**Alloy Steel Orifice Flanges in India, Alloy Steel Pipe Flanges Manufacturers
in India, Alloy Steel Reduced Flanges Suppliers in India, Alloy Steel Slip On
Flanges Exporters in India, Alloy Steel Lap Joint Flanges Stockists in India.**
