

Alloy Steel Grade P91 Pipes

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries. The **ASTM A335 gr P91 seamless pipes** has the advantage of possessing accurate dimensions which in turn is useful in applications that require high precision. The petrochemical industries, oil and gas industries, power generation plants and refineries often involve high temperatures and pressures. The ASTM A335 P91 Pipe has very high tensile strength, yield strength, impact cracking resistance, corrosion cracking resistance and oxidation resistance. The **A335 P91 Chrome Pipe** composition makes it possible for the material to have these high mechanical properties. The wall thickness varies from 3-12 mm depending on the diameter and the pressure class of the pipes.

The pipes have different tolerance levels and testing standards based on the application requirements, grades, schedules and pressure classes of the pipe material. **ASTM A335 P91 Seamless Pipe** is one of the seamless pipes of specification A335 in various industries. The ASME SA 335 Grade P91 Alloy Steel Pipes are made up of a chromium molybdenum alloy. These pipes have 1% molybdenum, 9% chromium and nickel, manganese, silicon and carbon in them.

Alloy Steel P91 Pipes, Alloy Steel P91 Welded Rectangular Pipes Manufacturers, Alloy Steel P91 Seamless Pipe Suppliers, Alloy Steel P91 Marine Exhaust Pipe Exporters Alloy Steel P91 Polished Decorative Pipe Stockist.

Alloy Steel P91 Square Pipe in India, Alloy Steel P91 Pipes Manufacturers in India, Alloy Steel P91 Rectangular Pipe Suppliers in India, Alloy Steel P91 Hydraulic Pipe Exporters in India, Alloy Steel P91 ERW Pipes Stockist in India.

Chhajed Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
