

Aluminum Sheets & Plates

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Aluminum Plate** has a great affinity towards oxygen which it forms a protective layer of oxide on the surface. It has a density lower than those of other common metals, at approximately one third that of steel. It is soft, non-magnetic and ductile. Aluminum sheet crystallizes in the face-centred cubic structure. They are an excellent conductor of heat and electricity. Its thermal conductivity is about half that of copper and its electrical conductivity is about its two-third. Anodized aluminum sheet is simply a combination of carbon fiber filaments in a matrix material.

It is an electrochemical process that converts its surface into a durable, corrosion-resistant, decorative, anodic oxide finish and it is ideally suited for it. **Aluminum chequered plate** is a metal stock with a regular pattern of lines or raised diamonds on one side, with the reverse side being without features. They are also as aluminum checker plate and aluminum tread plate. Aluminum chequered plate are also as aluminum checker plate and aluminum tread plate. It is a metal stock with a regular pattern of lines or raised diamonds on one side, with the reverse side being without features.

Aluminum Patterned Sheet eliminates defects like oil canning which can be reduced by using the patterned finishes to provide improved optical flatness thus making the product ideal for cladding system. They are manufactured by cold rolling various patterns. Its finishes provide a large selection of random and symmetrical designs that are modern and attractive in appearance. powder coated aluminum sheet used to apply decorative and protective finishes to aluminum profiles through a process that electrostatically charges the powder consisting of a mixture of finely milled resin and pigment.

Aluminum Sheets & Plates, Aluminum No.4 Hairline Inox Sheets Manufacturers, Aluminum Hot Rolled Plates Suppliers, Aluminum Cold Rolled Plates Exporters Aluminum No 4 Satin Finish Sheets Stockist.

Aluminum Shim Sheets in India, Aluminum Sheets & Plates Manufacturers in India, Aluminum Hot Rolled 2B finish 6mm Sheets Suppliers in India, Aluminum 4mm Cold Rolled Sheets & Plates Exporters in India, Aluminum Perforated Sheet Stockist in India
