

ASTM A179 CS Heat Exchanger Tubes

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Boiler Tubes BS 3059** are cold drawn made with or without weld or joints. BS 3059 material has the ability to withstand very high pressures. It is very strong in nature and it does not break or crack while in service. BS-3059 seamless pipe is recommended for transportation of fuel, gas and pressure. It provides improved corrosion resistance in moderately corrosive environments. **BS 3059 ERW** has high stress to rupture strength and creep strength even in the high temperatures.
