

API 5L X80 Pipes

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. This **API 5L Gr X80 Carbon Steel Pipe** is meant to be used for pipeline transportation systems. Typically, the API 5L X80 PSL1 Seamless Pipe is used in industries such as petroleum and natural gas. The application of the API 5L X80 Seamless Pipe is noticed in conveyance of mediums like gas, water, and oil, as these pipes are well suited in the transportation of these media.

The technical committee that has authored these said standards recognized the need for two basic Product Specifications Levels, also referred to as PSL of technical requirements. Therefore, this technical committee then developed PSL 1 as well as the **API 5L X80 PSL2 ERW**. This PSL 1 is a standard quality for line API 5L X80 Pipe, on the other hand, the PSL 2 for API 5L X80 ERW Pipe contains additional information such as chemical, mechanical properties, and testing requirements as well.
