

Copper Nickel Flanges

Chhajer Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Cupro Nickel Flanges** is useful for connecting pipes, pumps valves, and other equipment to form a piping system. They are used in seawater piping systems due to a high resistance towards marine organisms such as barnacles. Cuni Flanges are usually welded or screwed it is mechanical device to connect pipes. **Copper Nickel Slip On Flanges** is an ideal material for use in marine and saltwater environments for commercial and naval shipping, sea water and hydraulic pipelines, desalination plants, heat exchangers and equipment, fish farming cages, offshore renewables, ship and boat hulls and more.

It is suitable for low-pressure applications and are easy to install and weld onto different pipes. Copper Nickel Blind Flange not used purpose of it is to block off a section of pipe or a nozzle on a vessel. **Cu-Ni Blind Flange** is stronger and has superior resistance to impingement corrosion. **Cuni Composite Flange** committed with copper nickel inner flange and carbon steel outer flanges It has good ability of anti-corrosion. **Copper Nickel Threaded Flange** is a threaded in the bore which matches an external thread on the pipe.

They can be attached to the pipe without welding. It Same like slip-on pipe flanges that are used with pipes that have external threads. **Copper Nickel Flange** is manufactured of high quality metal for added durability. They are used to secure diamond blades, grinding wheels, and multi-discs for a variety of applications. It can hardened only by cold working and is highly resistant to corrosion.

Copper Nickel Weld Neck Flange provides an important reinforcement for use in several applications involving high pressure, sub-zero and / or elevated temperatures. They have a long tapered hub that goes gradually over to the wall thickness from a pipe or fitting.

**Copper Nickel Flanges, Copper Nickel Blind Flanges
Manufacturers, Copper Nickel Weld Neck Flanges
Suppliers, Copper Nickel Slip On Flanges Exporters
Copper Nickel High Hub Blind Flange Stockists.**

**Copper Nickel Orifice Flanges in India, Copper Nickel Pipe Flanges
Manufacturers in India, Copper Nickel Reduced Flanges Suppliers in India,
Copper Nickel Slip On Flanges Exporters in India, Copper Nickel Lap
Joint Flanges Stockists in India**

Chhaged Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
