Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. **EN 10216-3 P355N TC1 Alloy Steel Seamless Tubes** is a weldable fine-grained construction steel for pressure vessel construction. It is for pressure purposes it is an alloy fine grain steel tubes which is used in elevated pressure installations and where it is necessary to assure the appropriate level of impact resistance of steel in high temperatures. **IBR approved p355n tc1 steel pipe** goes through the construction code that specifies the material, fabrication, design, inspection, and testing requirements for boiler and boiler connected parts for use in India. It covers the industrial equipment in steam services such as heat exchangers, separators, steam traps, full steam piping, accumulators and similar vessels, converters, evaporators and similar vessels in which steam is generated.
