Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. The pipe graded as Steel **EN 10219 S275JOH Hot Finished Structural Hollow Sections** is produced from an unalloyed form of low carbon mild steel. Generally, at Aesteiron, we supply this grade of **Carbon Steel EN 10219 S275JOH Rectangular Tube** in a hot rolled condition. As a low carbon EN 10219 S275JOH Steel Grade RHS, these pipes tend to offer a low tensile strength property along with good machinability properties as well. Good machinability along with lower content of carbon in this particular carbon steel S275JOH pipes is a feature which is considered to be ideal for operations such as welding.

Since the Steel **S275JOH EN 10219 Square Tube**, we produce is made from good quality raw materials, they tend to be durable. Hence the EN 10219 S275JOH Steel Hollow Section has a long service life along with good performance. In addition to this our clients prefer using the low carbon grade Steel EN 10219 S275JOH Hollow Section widely in industries such as the construction as well as structural applications, because of its low cost.
