

Inconel 600 Tubes

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Inconel 600 Seamless Tube/ Inconel 600 Seamless Tubing** have excellent mechanical properties and present the desirable combination of good workability and high strength. The high nickel content provides corrosion resistance to by many organic and inorganic compounds and also makes it virtually immune to chloride-ion stress-corrosion cracking. **SB 167 UNS N06600** is machinable in both the hot worked and annealed conditions. Because considerable heat is generated in machining, high-speed steel, cast nonferrous or cemented carbide tools should be used and the tools should be kept sharp.
