

Inconel 718 Tubes

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. As a specialized **inconel 718 tube** suppliers, it is our passion to find individual solutions for our customers, with a high quality standard and excellent service. **Inconel 718 Seamless Tube** is a high-strength, corrosion-resistant nickel chromium material. It is used at -423° to 1300°F. It is composed of nickel 50-55 %, chromium 17-21%, niobium and tantalum 4.75-5.5 %, and trace amounts of cobalt, molybdenum, manganese, titanium, aluminium, copper, silicon and other elements. **Inconel 718 Seamless Pipe** has one of the distinguishing features of composition i.e. the addition of niobium to permit age hardening which allows welding and annealing without spontaneous hardening during heating and cooling.

ASTM B163 UNS N07718 is used in jet engine and high-speed airframe parts such as buckets, wheels, and spacers, and high-temperature bolts and fasteners. It is also used in the oil and gas drilling and production industries due to its high resistance and strength to chlorides, sulfide stress cracking and stress corrosion.

Inconel 718 Tubes, Inconel 718 Welded Rectangular Tubes Manufacturers, Inconel 718 Seamless Tube Suppliers, Inconel 718 Marine Exhaust Tube Exporters Inconel 718 Polished Decorative Tube Stockist.

Inconel 718 Square Tube in India, Inconel 718 Tubes Manufacturers in India, Inconel 718 Rectangular Tube Suppliers in India, Inconel 718 Hydraulic Tube Exporters in India, Inconel 718 ERW Tubes Stockist in India.
