

Maraging Steel 300 Sheets & Plates

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Maraging Steel 300 Plate** is a vacuum induction melted and vacuum arc re-melted, low-carbon, nickel-cobalt-molybdenum high-temperature nickel alloy. **Maraging steel 300** material can produce yield strengths in excess of 270 ksi through simple, low-temperature heat treatment at 900°F. It also exhibits good ductility at high strength levels, displays excellent notch ductility and outstanding weldability. C300 maraging steel sheet is a nickel/cobalt steel alloy that is essentially carbon-free, other alloying elements include moly, aluminum and titanium.

This combination creates a superior maraging steel that maintains numerous beneficial features such as high strength & toughness, ultrahigh tensile strength, extremely tough. **Grade 300 Maraging Steel** also has an excellent strength-to-weight ratio so it can be used for high strength structural applications that include aircraft land gear components and for numerous defense and military purposes. Some of the applications are aerospace, die casting, extrusion tooling, missile & rocket motor cases, high performance shafting, gears & fastener.

Maraging Steel Sheets & Plates, Maraging Steel No.4 Hairline Inox Sheets Manufacturers, Maraging Steel Hot Rolled Plates Suppliers, Maraging Steel Cold Rolled Plates Exporters Maraging Steel No 4 Satin Finish Sheets Stockist.

Maraging Steel Shim Sheets in India, Maraging Steel Sheets & Plates Manufacturers in India, Maraging Steel Hot Rolled 2B finish 6mm Sheets Suppliers in India, Maraging Steel 4mm Cold Rolled Sheets & Plates Exporters in India, Maraging Steel Perforated Sheet Stockist in India.

Chhaged Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
