

Maraging Steel Sheets & Plates

Chhajer Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Maraging Steel Sheet** is special class of low-carbon ultra-high-strength steels that obtain their strength not from carbon, but from precipitation of intermetallic compounds. Its aging can be extended heat-treatment process. They are known for possessing superior strength and toughness without losing its ductility. **Maraging Steel 250** has improved fracture toughness from Maraging 300 but slightly less strength. It is easily machinable in the annealed condition prior to final heat treatment.

Maraging Steel strength is transmitted by martensite ageing which is improved after heat treatment. It is the equivalent of M300 maraging steels. They are useful for injection molding tool inserts through die casting tooling to F1 engine substrate components where ultra-high strength is required. Vascomax 250 is a strong, resists corrosion from saltwater and industrial atmospheres and can be readily welded. nickel alloy which has an outstanding ductility and offers ease of machining and forming. **1.2709 Maraging Steel** is a tool steel with a high content of alloyed some molybdenum and nickel. It is suitable for many tooling and high performance applications that needs toughness and high strength.

Maraging 250 is an age hardenable iron-nickel steel alloy melted as VIM + VAR with ultra-high strength and toughness. 2800 Maraging Steel alloy has very little dimensional change and this is why it is often machined to its final dimensions before heat treatment, they are heated treated. 18ni300 I are unique properties make it suitable for many critical aerospace applications. They can be easily machinable in the annealed condition prior to final heat treatment. **Maraging C250** has a wide range of application including power shafts, rocket motor casings, light aircraft landing gear and low temperature tooling.

Maraging Steel Sheets & Plates, Maraging Steel No.4 Hairline Inox Sheets Manufacturers, Maraging Steel Hot Rolled Plates Suppliers, Maraging Steel Cold Rolled Plates Exporters Maraging Steel No 4 Satin Finish Sheets Stockist.

Maraging Steel Shim Sheets in India, Maraging Steel Sheets & Plates Manufacturers in India, Maraging Steel Hot Rolled 2B finish 6mm Sheets Suppliers in India, Maraging Steel 4mm Cold Rolled Sheets & Plates Exporters in India, Maraging Steel Perforated Sheet Stockist in India.
