

Stainless Steel Perforated Sheets

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Stainless Steel Perforated Sheet** is useful for automotive - radiator grilles, motorcycle silencers, oil filters, air filters, running boards, ventilation grids, silencer tubes, etc. Architectural - infill panels, column covers, metal signage, site amenities, etc. Food & beverage - grain dryers, wine vats, fish farming, silo ventilation, sorting machines, baking trays, fruit and vegetable juice presses, cheese molds, coffee screens, etc. Chemical & energy - filters, drying machine baskets, water screens, mine cages, battery separator plates, gas purifiers, liquid gas-burning tubes, coal washing, etc. Construction - ceiling noise protection, acoustic panels, pipe guards, ventilation grilles, sun protection slats, signboards, etc.

The materials used may vary, a slotted **stainless steel perforated sheet** is punched for elongated holes with round or square ends. As compared to a similar perforated sheet with other holes pattern, this proves to be the best solution for sieve liquids, filtrate, and solids, such as water, wine, seeds, and grains, etc. **Stainless steel Square Perforated Sheet** is durable and has a wide range of applications in several industries. Stainless steel perforated sheet suppliers are known for endurance and tolerance levels. It is the preferred choice for application in filter machines, sizing machines, dish antennas, for insulation of rooms, and other general purposes.
